SERVICE ACTIVITIES SUMMARY: Instructions Save Cancel

Date	Description
<input type="checkbox"/> 2014	I have always been an active contributor to service activities at UCSF and to my professional societies. Since my last merit in 2011 I have continued as a consultant to two dental associations (American and California Dental Associations), as well as the FDA. I am an editorial board member for several journals (Dental Materials; Archives of Oral Biology; Dental Biomechanics, Am J of Dentistry, PeerJ) and I review for numerous journals. I occasionally review grant proposals for various agencies. Much of what I do is service, but in addition I serve on a multitude of campus committees and as a representative to UC systemwide.
