Background

At UCSF, appointment and advancement packets are created, reviewed, and routed within the Advance system. As a reviewer of packets, you will need to access Advance through myaccess.ucsf.edu, review the packet, and make your assessment of the packet known to the appropriate people – review committee chair, chair of the department, etc.

Reminders

- Certain titles may not include a CV under the CV page, but may include the CV as an attachment:
 - Volunteer Clinical, and other volunteer titles
 - If you do not see any data within the CV page, check the Attachments page to see whether a CV has been included in the packet as an attachment
- Remember to save your changes when you draft the chair letter, or when you check the review complete check box
- Take notes as you review so you can raise issues you have found with the packet with your Chair or with your review committee chair
