

Publishing Insider

Sponsored by the Chancellor's Council on Faculty Life (CCFL) and Library Services

hints & tips

Are you interested in getting your research published? Would you like to learn how to become more proficient and productive in preparing your manuscripts?

All members of the campus community are invited to attend.

UCSF journal editors and highly productive science writers will share their advice and insights into the important process of turning your research results into a publishable journal article. These informal presentations aim to engage and help faculty, students and researchers navigate the often complicated path to publishing. Each session will allow time for Q&A.

Translational Neuroscience

Tuesday, June 26 / 3:30-5:00 p.m.

Mission Bay, Byers Hall 215
Christoph Schreiner, MD, PhD
